

GENNY

The Home & Office Drinking Water Solution

You'll never have to worry about your drinking water ever again!

Fresh, safe drinking water for your home or at the office, always on tap.

Meet GENNY! An innovative water-from-air device that guarantees a steady supply of great-tasting water generated from humidity in the air around you.

The GENNY creates a whole new source of drinking water, produced and available constantly throughout the day. No need for plumbing; all that's needed is an electric power socket.

Enjoy up to 30 liters of drinking water daily right where you need it, depending on the temperature and humidity in the GENNY's proximity. The GENNY has been customized for home and office use and can produce hot and cold water throughout the day. The water goes through a unique filtration system using Ma Hawa's patented technology so that the water always tastes great and is bacteria-free.

The ideal safe, green, energy-efficient and off-grid solution for all your drinking water needs.

Advantages

HIGH-QUALITY DRINKING WATER

Fresh, clean and safe drinking water from air

YOUR OWN SOURCE OF DRINKING WATER

Extracted in your home or office

UNIQUE AND INNOVATIVE

Patented heat-exchange technology

PLUG & DRINK

No infrastructure or piping required

CONVENIENCE, HOT & COLD WATER

No need to order ahead or store water

ENVIRONMENTALLY FRIENDLY

Reduces plastic waste and carbon footprint

STANDARDS COMPLIANCE

Complies with international water purification standards

GENNY

Specifications

Water generation capacity	Up to 30 liters / 8 gallons a day
Integrated water tank with continuous water treatment	23 liters / 6 gallons
Cold water temp.	41°-44.6°F (5°-7°C)
Hot water temp.	185°-210°F (85°-95°C)
Dimensions (LxWxH)	54cm x 42cm x 130cm / 21.3" x 16.5" x 51.2"
Weight	80 kg / 176 pounds
Energy consumption	400 Wh/Liter for water generation in standard conditions (26.7°C, 60%RH)
Power	EU: 230 Vac / 50 Hz, US: 120 Vac / 60 Hz
Power consumption	EU: 550W Nominal / 2600W maximum, during water heating US: 550W Nominal / 1200W maximum, during water heating
Water purification	Multi-step filtration cascade combined with high-end aqualen fibers and microbial treatment technologies followed by a germicidal UV lamp and UF. Vital minerals balance the water pH to achieve high purification and tasty drinking water.
Air filtration	Sub-micron barrier filter that eliminates <2.5 particulate matter

Applications

Kitchen

Dining room

Meeting room

Office

Ma Hawa uses Watergen's patented air-to-water technology to create drinking water of the highest quality, without using expensive infrastructure or depleting the planet's natural water sources. It's also environment-friendly, reducing the need for carbon-intensive supply chains and plastic bottled water.
